COMMENTS:

1. The Blackboy roundabout has become a bottleneck and heavy traffic as there is only way to go out or come in into the Shinfield/ Arborfield. This needs to be resolved and the new roads/ bridges needs to be considered before constructing the new houses.
2. Telecom Masts are very less in the area and we couldn't able to get signal properly in the new houses. The reception is very weak/ not available in the area. This needs to be considered first before approving the construction of new houses.
3. Secondary school standard is not upto to the standard and it needs to be improved.
