APPRAISAL

Site Description:

This site relates to a semi-detached dwelling in the major development location of Wokingham.

Principle of Development: The National Planning Policy Framework has an underlying presumption in favour of sustainable development which is carried through to the local Development Plan. The Managing Development Delivery Local Plan Policy CC01 states that planning applications that accord with the policies in the Development Plan for Wokingham Borough will be approved without delay, unless material considerations indicate otherwise.

The site is located within settlement limits and as such the development should be acceptable providing that it complies with the principles stated in the Core Strategy. Policy CP3 of the Core Strategy states that development must be appropriate in terms of its scale of activity, mass, layout, built form, height, materials and character to the area in which it is located and must be of high quality design without detriment to the amenities of adjoining land uses and occupiers.

Character of the Area:

The proposal involves the removal of the existing garage door and replacing this with a set of windows on the front elevation. The proposed windows reflect the design and proportions of the existing fenestration which would preserve the character of the existing dwelling and overall, would be a modest form of development that would not have an adverse impact upon the character of the area

Neighbouring Amenity:

The new windows on the front elevation would overlook the front driveway and public realm. The proposals would not result in any harm to adjacent neighbouring residential amenities in terms of loss of light, overbearing or overlooking.

Highway Access and Parking Provision:

Whilst both proposed parking spaces are substandard, the Highways officer considers the parking in front of the proposed lounge to be a retainment of existing parking and the new parking to be an improvement of current garage provision. In this instance it is not deemed necessary that the applicant installs a dropped crossing, as the new space can be accessed from the original dropped crossing, and there is suitable on-street unallocated parking available.

Community Infrastructure Levy (CIL): When planning permission is granted for a development that is CIL liable, the Council will issue a liability notice as soon as practicable after the day on which the planning permission first permits development. Completing the assumption of liability notice is a statutory requirement to be completed for all CIL liable applications.

The Public Sector Equality Duty (Equality Act 2010): In determining this application the Council is required to have due regard to its obligations under the

Equality Act 2010. The key equalities protected characteristics include age, disability, gender, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief. There is no indication or evidence (including from consultation on the application) that persons with protected characteristics as identified by the Act have or will have different needs, experiences, issues and priorities in relation to this particular planning application and there would be no significant adverse impacts as a result of the development.

RECOMMENDATION
