COMMENTS:

After reading Charvil Parish Council's late comments, we strongly object to them trying to reserve the right of a footpath between the new development and The Hawthorns/Canberra Lake Way on land they do not own. A footpath would still lead to overflow parking from Bellway's development to The Hawthorns and Canberra Lake Way and impact a wildlife corridor and hedgerow used by deer, muntjac, foxes and nesting birds. Canberra Lake Way residents have clearly indicated that they don't want a footpath so instead of pursuing this route, could Charvil Parish Council please concentrate on improvements to Bellway's layout, insisting they provide more parking spaces and prioritise maintaining the few remaining wildlife corridors.
