COMMENTS:

I fully support this Application as the community in Wokingham to respectfully request the council's consideration for establishing a masjid (Islamic place of worship) within the borough.

Wokingham is a diverse and growing community, with a significant number of Muslim residents who currently travel considerable distances to access a place of worship. A local masjid would not only serve as a place of worship but also as a community center, fostering interfaith dialogue, community cohesion, and offering educational and charitable services to all residents.

We believe that a masjid in Wokingham would enhance the community's cultural diversity and strengthen the spirit of inclusiveness that the town is known for.

Muslim community is looking forward a positive response from Wokingham Borough Council

Regards,

Fakhir Rashid
