COMMENTS:

I believe this location is very suitable, and since it is close to residential areas, most people intending to visit it will prefer to walk. This will logically reduce the burden of traveling to another place for prayer, thereby easing the congestion in other areas. Additionally, there are elderly people who wish to visit the location but prefer not to drive long distances.

I would like to point out one thing: prayer has a fixed time, which means that those heading to this place will have planned in advance to arrive on time so as not to miss it. Therefore, even if they are a little late, they will avoid congestion.

I would be extremely grateful if this project is approved.
