COMMENTS:

I strongly object. There are too many houses in Spencers wood. There is no infrastructure to accommodate at least another 1000 cars! The pollution will be horrendous. Wokingham should make sure all the schools are viable, Oakbank is not fit for purpose. The doctors are already at bursting point and it is ok to say there will be another Doctors surgery but where are the Doctors coming from? The traffic on Basingstoke Rd is already a nightmare and to add to it seems uncaring and no thought for the already residents. You are taking every bit of wild life away trees will be chopped down in is unfair and greedy
