COMMENTS:

We are a diverse community, inclusive and respectful towards each other. A community Center cum worship place for Muslims in Wokingham is much needed. Wokingham Muslim community is growing and a place like this is needed. The struggle to find a place to worship just for a month is becoming too hard. A place for prayers, children and women's workshops, workshops for different charities to come and connect with Muslim community, and much more. Really looking forward to council to show the support.
