COMMENTS:

I do respect other people concerns and objective comments about this proposed building for converting a Muslim educational hub but I would like to highlight that we have Park and Ride option available on walking distance to this place and it can overcome the parking issues very nicely and easily and also many people can walk to this place without needing the use of cars as I know personally many Muslim residents do have access to it by walk and also we all aware that car share also another way to manage traffic congestion as many people are voicing about it.

I strongly support this proposal as having this own place for practicing our five times a prayer and running a religiously events smoothly without needing to travel far as we all have a busy life home/family and work.

It would be a great initiative for a Muslim community who can have their own place with be hep of Wokingham borough council and I hope other communities will also like to support us and given our young generation to proper and practice own religious and cultural workshop within their local area.
