COMMENTS:

It is great that to know that a dedicated space is being considered for us Muslims to congregate. For years we have had to run to Reading or Bracknell to squeeze into their mosques and fight the battle of space and car parking. The community here is growing and it is essential that our children do not lose their identities as we assimilate into our Wokingham community. It is essential that we are able to meet to pray, learn and discuss social affairs, a space for young and old to gather and socialise and get involved in planned activities. A dedicated building will help us feel involved in the upkeep of a community space to help us feel welcomed 24h of the day. It will allow us to welcome other faiths in to join in to help our youth be proud Muslim residents with a voice and a hub. Let's continue to welcome diversity as we all wish to make Wokingham our home.
