Comments:

The Council's Built Heritage Officer has considered the proposed fencing acceptable in form and appropriate to the setting of the listed buildings and conservation area.

While no details have been provided on how the fencing will meet the rear of the buildings, whether fixed or freestanding, either approach is unlikely to harm the listed fabric.

Given the listed status, any alterations to boundaries—including fences or gates—require planning permission and possibly listed building consent. The garden layout at No. 38 suggests a rear access gate may be intended, and one may also be proposed for No. 36.

There is no objection in principle to gates; however, confirmation is required, and any details should be secured via the boundary treatment condition.

The agent has confirmed no gates are proposed at either property. This condition is therefore discharged, subject to the development being carried out in accordance with the approved details.
