COMMENTS:

Farley hill is the only green pocket in a sea of development. We need to support our Green spaces and wildlife. We have deer/munkjack deer/foxes/badgers and so much other wildlife roaming freely in Farley hill. They will lose their habitat. There is not sufficient infrastructure already for the amount of housing in Arborfield zone. Roads and traffic are terrible. Doctor's surgery cannot cope and schooling isn't sufficient. We can't have more housing.
