**For the attention of the Chief Planning Officer**

Dear Sirs

**NOTICE IN ACCORDANCE WITH THE ELECTRONIC COMMUNICATIONS CODE (CONDITIONS AND RESTRICTIONS) REGULATIONS 2003, FOR A TELECOMMUNICATIONS INSTALLATION, THAT IS PERMITTED BY PART 24 OF SCHEDULE 2 OF THE TOWN AND COUNTRY PLANNING (GENERAL PERMITTED DEVELOPMENT) ORDER 1995 (AS AMENDED[1])**

**FOR A TELECOMMUNICATIONS INSTALLATION AT NINE MILE RIDE, FINCHAMPSTEAD, WOKINGHAM, RG40 3LT (CELL 71049)**

T-Mobile (UK) Limited has been licensed to operate a Universal Mobile Telecommunication Systems (UMTS) network until 2021 in the 2100MHz (2.1GHz) frequency. In order to facilitate the provision of an Electronic Communications Network, the Electronic Communications Code (schedule 2 to the Telecommunications Act 1984, as amended by Schedule 3 to the Communications Act 2003) has been applied to T-Mobile (UK) Limited.

T-Mobile's proposed development, as indicated on the attached drawings, is permitted by Part 24 of Schedule 2 of the Town and Country Planning (General Permitted Development) Order 1995 (As Amended[1]) and does not fall within the categories of development that require prior approval of siting and appearance under the 56 day planning procedure. We therefore believe that the proposed development can proceed without a specific planning approval from the local planning authority.

This notice is served in accordance with Regulation 5 of the Electronic Communications Code (Conditions and Restrictions) Regulations 2003. The regulations require that if the planning authority wish to make any observations under these regulations they should do so within one calendar month of the date of receipt of this notice. T-Mobile will not carry out the development prior to the expiry of this period, or prior to the receipt of a letter stating no objection, whichever is the sooner.

[1] by SI 2001 No.2718

TCI Group is the trading name of:

TCI Renewables Limited. Company Number: 5360262
Total Communications Infrastructure. Company Number: 3433852
Commpro Acquisition Services Limited. Company Number: 3453076
Commpro Communications Limited (Eire). Company Number: 402168
Total Communications Installations. Company Number: 4140057

***The proposed development comprises the addition One No. equipment cabinet to the existing installation. The overall height of the installation will be identical to the existing installation when the works have been completed.***

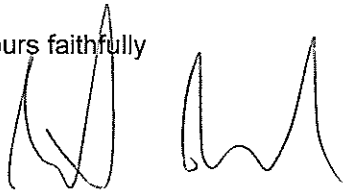

The proposed site has been chosen as a location to provide coverage for T-Mobile's 3G network, currently being developed and installed throughout the United Kingdom. It should be noted that much of their 2G network is already in place and T-Mobile are focusing on the rollout of their 3G network. Where appropriate, 3G equipment is being installed on existing 2G sites. However, the significant differences in technology mean that additional 3G sites will be required to provide for the necessary network coverage.

For the avoidance of any doubt we would take this opportunity to confirm that the RF emissions from our client's equipment fall well within ICNIRP guidelines, as recommended by Stewart on a precautionary basis (PPG8, paragraph 91).

T-Mobile has made a firm commitment to try and improve consultation with Local Authorities, interest groups and the general public. T-Mobile has therefore established a dedicated call centre and e-mail address. When contacting the Community Affairs Team, if the enquirer can have the 'Site ID'/'Cell Reference Number' or the site address, it will enable their query to be dealt with more effectively. The 'Network Information Line' phone number is 0870 3216047 and the dedicated e-mail address is networkinfo@t-mobile.co.uk. Please do not have any hesitation in providing this information to any member of the general public.

We trust that the enclosed information is satisfactory. Should you require any further details, please do not hesitate to contact myself or my colleague Jon Manson on the telephone number detailed on the first page.

Yours faithfully

Mike Williams
On behalf of T-Mobile (UK) Limited

Dear Mr Williams

cabin should be no more than 20 $m^3$ volume.

**Letter I.D Number:** **88702**

**Details of Proposal:** **Telecommunications installation**

**Address of Site:** **Nine Mile Ride, Finchampstead. RG40 3LT**

Your request for an informal officer opinion on the above proposal was received on 1st July, 2005.

The Case Officer who will be dealing with your enquiry is Mrs Elaine Vashi.

In some cases it is necessary to seek to views of consultees (e.g. Highway Engineers) before an opinion can be formed on the acceptability of the proposal.

It is the Council's aim to seek to respond to requests for pre application advice within 42 days (6 weeks) from the date of receipt. This may take longer though in the case of more complex proposals or where there is substantial input required from consultees.

A full response will be sent to you as soon as possible. If in the interim you would like to discuss this matter, then please contact the officer named above.

Yours faithfully

Simon Birch

Principal Development Control Officer
