COMMENTS:

I would like to object to the application to extend the working hours at the proposed new industrial development on Headley Road East. The impact on quality of living is too high for a residential area. The noise survey shows the increased activity making a considerable difference between normal night time hours with out the industry working. The restriction of traffic/ lorries entering the site and off loading during the hours 10pm- 6 am will help reduce the negative impact that this site has on the community.
