

PLANNING REF : 241959
PROPERTY ADDRESS : 8 Perth Close
: Woodley, Berkshire
: RG5 4TU
SUBMITTED BY : Mr Mike & Marjorie Reeves
DATE SUBMITTED : 07/08/2024

COMMENTS:

The existing elevation & layout of 6 Denmark Avenue is as the proposed building plans of Application number 240651 - which we were duly

informed of by WBC, to comment on.

The Application number 241959 is proposed further alterations, based on the 'proposed' plans of 240651, (not existing) which we were not informed of by WBC.

These new proposals have been brought to our attention, with some considerable concerns & reservations by us.

The change in fenestration from the original plans, are not only very unattractive but totally out of character with, not only Perth Close, (of which 6 Denmark Ave is part of), but also the surrounding residential area.

It is quite alarming & presumptuous to note that most of these 'proposed' alterations are almost completed before the application has been considered by WBC.

The proposed K-Render Off White is also out of character on an original, attractive red brick house, as is the proposed black slate tiled roof.

These new proposals need serious consideration by WBC with a possible site visit prior to any decision.
