

The drawing shows a rectangular box with a central vertical slot and a horizontal slot. The top view is a rectangle with a central vertical slot. The front view is a rectangle with a central vertical slot. The side view is a rectangle with a central vertical slot. The drawing is a technical drawing of a rectangular box with a central vertical slot and a horizontal slot. The top view is a rectangle with a central vertical slot. The front view is a rectangle with a central vertical slot. The side view is a rectangle with a central vertical slot.

An architectural elevation drawing of a building facade. The building features a central entrance with a small, gabled roof supported by two columns. The main body of the building has a flat roof and is divided into several vertical sections, likely representing windows or doors. On either side of the building are two large, stylized trees with dense, rounded canopies. The drawing is rendered in a simple, clean style with black outlines and light gray shading for the building's structure.

An architectural elevation drawing of a building. The building features a central gabled roof with a flat section at the top. The facade is divided into four vertical sections by three columns. Each section has a large, rectangular window or opening. The building is flanked by two tall, thin, stylized trees with irregular, organic shapes. The entire drawing is rendered in a minimalist style with black outlines and light gray shading.

A cross-section diagram of the garage/gym structure. It features a gabled roof with a height of 10'0" indicated by a vertical dimension line on the right. The base is labeled "GARAGE / GYM". The interior shows a flat ceiling with a central light fixture and structural supports. The exterior walls are thick and dark, with a small window on the left side.
