COMMENTS:

If requests like these are approved then there is no reason why our streets will be full of religious centres and the society even more divided. Especially when there is no governance on what happens inside once approved. We have enough centres to go to if we need to pray. Fridays especially will become chaotic with the prayer timings [REDACTED] let's think before approving anything and what effects that may have when the same place can be used for much better reasons. Especially when there are 16 other Islamic centres within a 5 mile radius.
