COMMENTS:

We are concerned about the impact of the ongoing construction at 10 Pigott Road on our property at 23 Whaley Road. In February 2025, our log cabin experienced flooding for the first time in over six years, coinciding with the raised levels in the garden at 10 Pigott Road. We believe the new paved area is causing increased water drainage towards our garden. We seek assurance that once the work is complete, measures will be taken to minimize the risk of further flooding.

Additionally, the fence between the office building and our property was damaged during the construction, leaving a gap. We understood a new fence was to be constructed, but we did not agree to the removal of part of our fence or the damage to other areas. We request assurance that no further damage will occur and that repairs will be made.

Thank you
