COMMENTS:

I wish to strongly object to Speedy Fuels plans to operate from the Old Prince Bros site.

The site is not at all suitable for large articulated fuel lorries to be turning in and out of the site on which is a small bendy road with little visibility, so these large vehicles will turn into oncoming

traffic on the opposite side of the road several times a day. This is an accident waiting to happen!

The site has flooded before and will again (see last Jan photos on record) The storage of fuel in such large quantities cannot be guaranteed safe , therefore there will be a tangible risk from fires/explosions and contamination of the country park and lakes.

Wildlife will suffer inevitably from the noxious fumes and run offs into the lakes. These risks are too much for the site to be so close in proximity to residential properties and a beautiful country park. The amount of extra traffic and pollution that this will generate will spoil the enjoyment of this quiet peaceful village and will harm residents health both mentally and physically.

THIS PROPOSAL IS NOT RIGHT FOR THIS SITE.
