COMMENTS:

The photo of the flooded area from January 2025, just shouts out the warnings that we should not allow oil/fuels etc to mix with the lakes and streams that are so nearby.

In my opinion Wokingham Council could do a huge favour of winning public support by saying they would instead use the area for Rail Station users car parking, only half a mile walk to station. If they built a one floor only, a metal type structure as we can see was done by the railway station in Wokingham would not need deep footings/pile driven supports, so should be less expensive than a brick/concrete type multi-storey version.

Then allow cheaper parking for all rail season ticket holders and again a reasonable cheap daily charge for others would seem fair to me.

So come on Wokingham B.C. you can supply a near perfect answer to the lack of parking for our much valued station.
