COMMENTS:

As with application no.231793-18/10/24, we strongly object to this planning application to be extended. This is a residential area and don't have the need for a working workshop/operating garage. We understand this was originally given permission on the basis of ' renovate an old vehicle as a hobby'. Very little work was done on these vehicles and have since been long gone off this site. There have been various vehicles lifted on this ramp resulting in abuse of your conditions of use. These vehicles are not owned or registered to

Mr.A.Burns. This garage equipment should be located in an appropriate place and not in a residential service road and certainly not accessible to the public (safety reasons). I feel sure that this is not a view that anyone would wish for from their property ,probably resulting in a reduction of their value . We question and to quote 'temporary installation of a hydraulic car lift' when it is cemented in situ (Retrospective
