COMMENTS:

I strongly support this application for covered padel courts, the sport is growing incredibly quickly and as a player for 2 years now I am seeing people all ages and abilities playing it regularly and having a great time being active and exercising which can only be great for the community as a whole, there are also lots of people making friends and that's another huge positive padel is starting to have in the UK. The number of courts in other areas is exploding and Wokingham is lagging behind so this facility is much needed and would be fully utilised all the time like all other centres for miles around and you will see far higher utilisation than tennis courts!
