COMMENTS:

1. Size of Extension

The volume of pitched roofing will increase to such an extent that it will be dominating and out of keeping on such a small plot. A point of interest here is that to my knowledge the row of 7 bungalows (which includes number 68), none have rear extensions of note.

2. Loss of Privacy

Reference Drawing 24/ARW/061, glazed patio doors on right hand side. Due to high floor level wrt ground level in both my house and the proposed extension, there will be a line of site between my kitchen window and the subject patio doors thereby infringing my right of privacy.
