COMMENTS:

I strongly object to the trees being reduced in size. These trees contain a large variety of Birds and wild life. We have had enough devastation to this area with the building. Why would you buy a property that has well established trees only to reduce their size. The trees give neighbours privacy as well as dwelling to many creatures. The developer already agreed as on their plans to keep the small area of woodland as is. However the developer decided to do his own thing and turn it in to extended the gardens.
