COMMENTS:

I am totally against this proposal. The centre of Twyford still has a village feel to it in spite of the increased housing in the area. So it will not fit into the proposed environs. It will also block and clutter the pavement.

I note the applicant is from central London so suspect has no connection to Twyford. It would appear to be solely a money making exercise with no benefit to Twyford at all.

I very much hope that the application is soundly rejected.
