COMMENTS:

This is a FORMAL OBJECTION

1. There is an inadequate buffer zone between the new development and the existing houses.

This must be increased and densely planted with shrubs and trees.

2. The social housing must be spread evenly around the development.

The present plan produces "ghettos" and prevents social cohesion.

These changes need not increase the cost of the development, but will make a major improvement to the outcome.

Terry and Wendy HUNT.
