COMMENTS:

Very concerned with the application regarding a 2 storey build the house is opposite our flat
It will affect and obscure the complete dynamics of the entrance of Eastwood Road the house is on a busy T junction with a bus route
It compromise the safety of residence which many are elder with mobility issues it will block out oncoming traffic coming around into the road
Also the shops which many children run to
It also will affect the the day light we get through our ground floor flat completely
I may add the resident has used the land "next" to the side of his property to dig up established beautiful tree to use his land as a car sales with over 15 vehicles at one time and changing daily with customers purchasing them we have photos
This has been going on for couple of years.

He has also tarmaced the whole of his front garden so he can stand another 4 Iv heal on and tarmaced a public drive opposite with no permission to stand another one of his cars on
We hope this is all considered seriously and if you wish photos of all sorts f different cars on his land I have them and very happy share with you and Wokingham council
