COMMENTS:

As a wheelchair user I object as this site would not cater to my needs as a member of the Islamic community who already struggles to attend other mosques. Also, inside I don't see For myself and other disabled users and also the elderly, we would struggle to safely enter this site due to the narrow road leading to the Winnersh Field business park. Also, there's no identified disabled parking or consideration for those who are partially sighted. With all planning people talk about "people will walk or use public transport" I cannot see reflecting my personal situation as there is no way for my wheelchair to safely get into Winnersh Fields (I can use the shops ok but the not this planned mosque). Sorry to have to object due to safety but this doesn't cater for us, and I fear our elderly would struggle too, some of whom need a council bus to travel and the mini van/bus would not safely drop/pick up at the building.
