Description of Proposed Works, Impacts and Risks

Please describe the proposed development:

As we have an application in with the traffic commissioner to have the site known as an operating centre for vehicles, we understand we would need a change of use application as well. We need to use the current hardstanding to park vehicle overnight occasionally. We would also use the current concrete floor that is laid to conduct basic vehicle repairs. Changing of tyres, replace parts (wing mirrors etc) and basic servicing of vans not exceeding 3.5t.

Please provide details of any transport and highways impacts and how these will be mitigated:

Minimal. Maybe 3-8 lorry movements a week.

Please provide details of any noise impacts and how these will be mitigated:

Minimal. With 3-8 lorry movements a week.

Please provide details of any contamination risks and how these will be mitigated:

No contamination risk.

Please provide details of any flooding risks and how these will be mitigated.

A flood risk assessment should accompany the application where the site:

- is in Flood Zones 2 or 3; or
- is in an area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency).

[Check if your site location is in Flood Zone 2 or 3 online.](#)
