COMMENTS:

I strongly oppose this proposed development. It would be yet another ludicrous overdevelopment in this area. It will greatly exacerbate the already unacceptable level of traffic in and around Wokingham and Reading and give rise to more pollution and undue pressure on local amenities.

Wokingham used to be regularly voted as one of the most desirable places to live in England. Not any more, due to the number of huge housing developments, such as this proposal, which have completely changed the character of the area and obliterated so much green space!
