COMMENTS:

Cockpole Green and Crazies Hill are one community, The Horns is our local pub and together with our village hall are the only two places where the community can gather. The horns is a historic pub and needs to be rescued, many tenants have not succeeded under the ownership of the brewery. Very many residents have committed to support it under the management of Horns Hospitality. The modifications to the building are an integral part of the planning proposals to create a viable plan to put this wonderful historic building on to a commercial footing. My wife Janet and I fully support the planning application.
