COMMENTS:

I wish to state my objection to this proposed development. Having reviewed the updated plans my original objections still stand - access from old forest road via a narrow track to 53 new dwellings is unacceptable. The volume of additional traffic that this will place on old forest road is not reasonable. Further development in this area is also having a very detrimental effect on the local environment having already put 800+ houses on other nearby fields. Local schools, GP's and public services are already under strain.
