COMMENTS:

Shinfield Park is in the centre of a residential area and a logistics centre is inappropriate. The entry to the site is the only entry and exit for the residents of Shinfield Park and at times already it can be difficult getting onto the B 3270 and take up to 30 minutes to reach junction 11. Adding large Lorries into this 24/7 is going to make life intolerable. There is a lot of talk about preserving the wildlife in the area but the humans who actually live at Shinfield Park also need to be considered. The additional noise and air pollution are going to make life difficult. The B3270 has just been resurfaced . How long is that going to last with lorry's thundering up and down all the time?
The traffic in the area is only going to get worse when the Shinfield studios become fully functional plus the British Museum research centre plus the proposed 4000 new houses at Arborfield. The roads will be so congested nobody will be going anywhere.
Please do not pass these plans for a logistics centre
