Dear Mr Cook,

TREE PRESERVATION ORDER NUMBER: 325/1987
APPLICATION NUMBER: 251980
LOCATION: 9 LITTLE FRYTH, CROWTHORNE, WOKINGHAM, RG40 3RN

I am writing to you regarding your application to carry out works to protected tree(s), which was received and validated on the 18 August 2025.

I can confirm Wokingham Borough Council **consents with conditions**, to the following work being carried out to tree(s) included in the above-mentioned Tree Preservation Orders (TPO):

Approved works to W1 of TPO 325/1987:

Silver Birch x3 - Crown reduction by 1.5-2m in height and by no more than 1.5m in lateral spread, back to suitable growth points.

Reasons stated for works:

Creating natural canopies. Allowing more light into the garden and reducing wind sail.

Officer comments:

The three Silver Birch trees form part of an older woodland group TPO which now extends across several residential gardens following development of the area. The trees are of moderate visual amenity value within the local landscape and contribute to the sylvan character of the area.

During inspection, the trees were found to exhibit minor dieback within the upper crown and signs of general stress at the crown extremities. The proposed crown reductions are considered reasonable arboricultural management to alleviate end-weight, remove minor dieback, and improve crown form.

While improved light levels to the garden have been cited as part of the justification for the works, this is not normally a reason to permit works to TPO protected trees in isolation. However, given the observed physiological condition of the trees and the modest extent of the proposed reductions, the works are considered acceptable and unlikely to be detrimental to the long-term health or amenity value of the group.

The works will result in a more balanced crown structure, maintaining the trees' contribution to the character of the area while addressing the minor decline observed

The consent is granted subject to the following conditions:

1. The above works must be completed before **28 October 2027** and in the event of the works not being completed by that date, further consent will be required.
2. Work must be carried out in accordance with British Standard 3998 – 2010 'Tree work - Recommendations'.
3. Climbing spikes shall not be used whilst undertaking any form of works on living trees, except on trees to be felled

Reasons for conditions 1-3...

1. To ensure that our records remain accurate.
2. To ensure the health, safety and visual amenity of the tree(s).
3. Spikes can cause extensive long-term damage to trees.

Informative:

If you are aggrieved by any of the conditions attached to your consent, you may appeal to The Planning Inspectorate (PINS). Because of coronavirus (COVID-19), you currently can only make a planning appeal online. You cannot currently apply by post.

For more information go to:

<https://www.gov.uk/government/publications/tree-preservation-order-appeal-form>

Telephone: 0303 444 5570 or e-mail it to: treeandhedgeappeals@planninginspectorate.gov.uk

Your appeal should be received within one month of receipt of this decision or any such longer period as the Planning Inspectorate may allow.

You are advised that this letter is in respect of the **Tree Preservation Order only** and it does not imply that consent would be forthcoming from the owner of the tree(s) or any such other persons from whom consent would be required.

If we can be of any further assistance, please contact the Tree and Landscape Officer via email to: development.control@wokingham.gov.uk

Yours sincerely,

Chris Hannington
Trees and Landscape Team Manager

cc. Applicant - Mrs Lesley, 9 Little Fryth, Crowthorne, Wokingham, RG40 3RN

Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Forestry Act 1967 and Felling Licences

If it proposed to fell a tree or trees greater than 5 cubic metres or sell more than 2 cubic metres of timber in any calendar quarter, a Felling Licence from the Forestry Authority may be required.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.

For more information on Felling Licences, please speak to the Woodland Officer at the Forestry Commission on 01296 696543

Further Information can be found on the Forestry Commission Website:
www.forestry.gov.uk
