Attachment available until 29 Nov 2024

Further information is not required to validate the application. Damage to buildings is not part of the application.

The reason for the works is that the trees (T1 & T2), by virtue of their size are no longer compatible with their location.
We have a potential issue with insurance cover.

I attach a pdf document (Trees at Trelawney) with photographs confirming the position.

Works proposed to T3 are for reasons of highway safety, and to ensure that it remains compatible with its position.

Application to be amended to provide for felling of twin stemmed Lime Tree (T1 on plan) as inspection reveals that the main trunk is in contact with the building at ground floor level.

A site visit by a tree officer would be welcome and helpful.

Regards,

Giles Perry
