COMMENTS:

This particular planning development involving land to the West of Heathlands Road will further reduce the open spaces that currently preserve the separation between Wokingham Without and the town of Bracknell.

There are extensive planning developments in hand with Wokingham to greatly infill the land adjacent to this intended development along the new southern relief road and this additional development will represent a considerable over-development in this currently agricultural area !!

I, along with many other local residents & organisations strong object to this needless over-development and hope the Planning Administration supports these objectives!!
