COMMENTS:

I appreciate that this objection consultation period has come to an end, but we were on leave at the time. I feel strongly about this objection and would like to make the following comments: object to this planning application for the following reasons:-

- The proposed extension will overlook our property and impede our privacy. The original house design was not intended to do this.
- The proposal to have six bedrooms and to encroach into the roof space will vastly detract from the original design and be out of character with surrounding properties.
- By significantly enlarging the size of this property will increase the number of vehicles associated to it.
- Having six bedrooms will no doubt increase the number of those living at the property, thus raising noise level.
- Huge disruption and noise associated to building the extension will occur if planning is granted.
