Appraisal:

Development

The site is a semi-detached dwelling, situated within the identified settlement boundary of Sonning. The application being considered proposes two storey rear extension and single storey front porch extension.

1. Impact upon neighbouring properties

   Given the scale, design and siting of the proposed porch, no adverse impacts are considered for neighbouring dwellings.

   The two storey rear extension is proposed to project 3.2m to the rear of the dwelling. This element would not extend beyond the bulky single storey extension of No. 31, which runs along the party boundary. A single storey extension is proposed to project 2.5m to the rear of the two storey extension, however given its scale and design in relation to the extension at No.31, no adverse impacts are considered.

   The two storey rear extension would be set in 3.3m from the party boundary with the adjoining semi, No. 35. A single storey extension is proposed between the two storey extension and the party boundary with No. 35. Given the distance of the proposed two storey extension from the party boundary and its hipped, low roofline, it is not considered significantly overbearing to warrant a refusal. Furthermore, there would be no significant overshadowing or loss of light effects to this neighbour's closest ground floor rear elevation window.

2. Impact upon the character of the area

   The northern side of Glebe Lane is characterised by two storey, semi-detached dwellings of similar design. These were former council dwellings and many have been extended and modified to date. The proposed porch extension would not be out of character and two storey rear extensions are not uncommon in the street scene. The designs of the extensions are subservient to, and in-keeping with, the host dwelling
