

COMMENTS:

I would like to object on the following grounds -

This pitch is the second for Luckley School. The first MUGA had restrictions placed on it based on noise pollution. For example no hockey was permitted due to the noise levels so to permit cricket would be arguably worse because it not only takes many more hours to complete a match, but the pitch proposed is far closer to neighbouring homes.

Also there have been numerous incidents with the current MUGA where whistles are being used (not permitted) and also floodlights being used outside of permitted times. Neighbours are having to write in and complain regularly as these restrictions are not adhered to so I have little faith they will be on a new pitch.

I would argue there should be no community use evenings or weekends to allow neighbours to enjoy some peace and quiet in their own gardens.

The position of the proposed pitch should absolutely not be allowed given how close it is to properties right behind it. Not only for disruption to their enjoyment of their homes but also the danger of stray cricket balls is of real concern.
