Comments On Proposal

While the total numbers of habitable rooms cannot be identified from the submission, there will be one additional habitable room on the ground floor. The driveway will be shortened by circa 10.3m and the existing garage that meets the council's requirement for car parking will be removed, leading to a loss of 2.5 parking space. Two driveway parking are proposed within the red line.

According to the WBC Car Parking Standards, the demand of parking for residential dwelling is subject to the numbers of habitable rooms. Each parking space shall have minimum dimensions of 5.0m x 2.5m.

The applicant is required to provide the total numbers of habitable rooms (preferably in form of floor plan of all floors) of the dwelling for Highways to determine the sufficiency of the proposed parking.

The proposed storage is suitable for cycle storage, which is acceptable.
