COMMENTS:

Hello ,

Regarding William - Yes that address in our office address and may be added by mistake.

regarding other's - We have analysed the shadow and i dont think that by extending the garage will affect the neighbours bay window in front . 2 .Many builders are expert in lower earley and will take care of public footpath/ drainage / other parking issues and i dont think these will affect during the construction stage . we have managed few challenging ones in the past without damaging any of these as oned by 2 neighbours.

3. we will go as per planners advise and if there is any amendments required then we are happy to amend.

Regards
Shashi
