

PLANNING REF : 241933

COMMENTS:

This further unplanned additional housing will be a great strain on infrastructure (roads, doctors, schools) and a destruction of valuable green space. It does not take into account Bracknell council

development plans and is an additional unwanted burden on our community. Wokingham Without is increasingly being used as a revenue/raising building site for the Council with zero thought given to local people, our daily lives, our requirements or our quality of life. This is another unsustainable proposal.
