

I think we are exempt from this based on the following information from your website:-

Exemptions to BNG

The following types of development are exempt from BNG5:

- Development which only impacts on onsite habitat with a biodiversity value of zero (e.g., entirely hardstanding);
- Development affecting very small areas of habitat (<25m² or 5m linear habitats);
- Householder applications;
- Small scale self/custom house builds;
- Sites being enhanced for wildlife, such as BNG projects;
- Developments affecting irreplaceable habitats; and
- Permitted development.
