COMMENTS:

The local plan already has seen a huge growth in housing, with significant further increase planned. There is no need for additional housing.

School Road was recently closed to through traffic this contradictory.

School Road access onto the junction with Langley Common Rod has poor visibility and accidents regularly happen. More traffic will further heighten the risk

There is already far too much traffic in the surrounding areas

The infrastructure is creaking already - very busy roads, water and gas issues, doctors overloaded etc

This will remove one of the few green field areas left and impact all the local wildlife

The council should reject this application
