COMMENTS:

I'm sorry but I have to object to this application, as someone that lives very close to this location there is already too much traffic into Gazelle close and not enough parking at the location. I can see parking overflowing into Cavendish Gardens opposite (which already has people parking there for Winnersh Station) and Green Acres Lane. As well as concerns around the frequent near accidents from people turning right coming out of Gazelle Close which is left turn only, which was changed after several very bad accidents, but many people ignore this, an increase in this will only lead to a severe or fatal accident.
