Appraisal :

Development
Proposed single storey rear extension to dwelling to form replacement conservatory. The existing conservatory, located on the south side, has a dwarf wall approximately 600mm high with glass panels over on the three sides. The proposal is to build a 2.12m high brick wall to the south side with the remaining two walls retained as dwarf walls. The existing flat roof would be removed and replaced with a Victorian style pitched roof in glass panels. The size of the proposed conservatory would be the same as existing.

The site is a link property located within the identified settlement of Earley.

Impact upon neighbouring properties
The conservatory is set-in from the southern boundary fence at present and that would be retained in the new proposal. The height of the proposed pitched roof to the conservatory would be the only difference between the existing and the proposed.The main building at no 19 is located further beyond the garage between the two properties, in view of this it is considered there would be no adverse impact upon no 19.

Impact upon the character of the area
The conservatory is located at the rear and would have no adverse impact upon the character of the area.
