Planning Issues :

* IMPACT UPON LISTED BUILDING
* IMPACT UPON THE GREEN BELT + AONB

Application Number: LB/2001/3412

Appraisal :

Impact upon listed building
The application being considered is proposed single storey side extension to listed building. The proposed extension has a hipped roof design which stands at 2.4 metres to the eaves and 4.3 metres to the pitch. The eaves are in line with the existing rear lounge extension. However the proposed pitch of the extension is higher than existing.

The 'L' shaped extension is proposed to extend to the side and rear elevation of the property. There is one proposed side facing door. The proposed extension infills a gap between existing lounge area and existing kitchen. It is considered that the proposed extension would materially affect the south elevation of the property. There appeared to be an accepted design decision to isolate the recent extension to the living room from the kitchen.

Therefore it is considered due to the size, form and structural implications of the proposed extension is considered to have an unacceptable impact upon the listed building.

Impact upon the character of the Green Belt and Area of Special Landscape Importance

The property is located on the top of Linden Hill. Although located in close proximity to Linden Hill Lane this is the end of the highway which then reduces to a track. The property is well screened from the highway by high tree and dense landscaping. Therefore it is considered that the proposal will not have an adverse impact upon the character of the Green Belt or wider area.
