COMMENTS:

Allowing this application will allow this applicant to continue to cause nuisance in this quite neighbourhood by using the site for selling cars. This application will devalue my property and increase our insurance. The property is at the junction of our road and allowing this structure will block the view of vehicles entering the road and become a serious hazard and cause accidents. I am certain that it will interfere with the right to light of the immediate property. We have not been consulted and no notice of this application was posted anywhere on the estate.
