COMMENTS:

I'd like to object to the above proposal. Having seen the huge impact of traffic and parking with the Sutton Seeds development this hugely impacts locally business, houses and roads. There is not enough car parking for the above site for the amount of worshipers that will be attending and will impact the local area. The only left turn outside of the car parking area will most likely be breached and then pushing even more traffic onto Winnersh roundabout - great!!!

In my opinion there is never enough thought for the local impact and wait of traffic - perhaps a place on Green park or Thames Valley with more parking would be better suited than a building with 20 spaces.1 compared to the many worshipers.
