COMMENTS:

I support the application for a mosque in Winnersh. As far as I can tell there is not a mosque or Islamic centre in Wokingham. According to the 2021 census, Islam is the second largest religion in Wokingham. It is not unreasonable to want a dedicated home to practice your religion. The space in Winnersh uses a site which is currently derelict. The impact to local residents will be small as it is on a trading estate. There is access to the site via car and public transport. I welcome this application, and if it succeeds I hope that it brings a sense of belonging and joy to those who use it.
