: Charvil, Berkshire  
: RG10 9UJ  
SUBMITTED BY : Mrs Pam Livesey  
DATE SUBMITTED : 08/12/2025

COMMENTS:

It would appear to be gross over development of the site, with far reaching danger to the environment with its proximity to the River Loddon. Also the number of HGV's using the small country roads daily will cause enormous disruption and congestion locally, and potentially increased number of accidents as HGV drivers are not known for their tolerance of local domestic traffic. I would strongly suggest that this application is refused, and that a more industrial environment is found.
